

Pediatric Dentistry + Orthodontics

CONCORD & MARLBORO

Welcome to Pediatric Dentistry + Orthodontics!

Thank you for choosing us for your child's dental care. We are excited to partner with you in fostering healthy dental habits that will last a lifetime.

During your first visit, we will review your child's medical and dental history and address any questions or concerns you may have. If your child is ready, we will clean their teeth and apply a topical fluoride varnish for added protection. We will also demonstrate proper brushing and flossing techniques to help your child maintain good oral hygiene at home.

One of our experienced pediatric dentists will examine your child's teeth and may recommend digital radiographs (X-rays) for a more comprehensive evaluation. After the examination, the dentist will discuss any findings with you and suggest treatment options, if necessary.

Before your visit, we encourage you to review the helpful information on our website, where you'll find everything you need for a smooth experience. Once your appointment is scheduled, you will receive an email with a link to complete the New Patient Form before your visit.

We understand that parents can sometimes feel anxious about their child's first dental visit. Our goal is to make the experience fun, positive, and educational. We are committed to ensuring your child feels comfortable and enjoys their time with us. It's important to us that this first visit sets the foundation for a lifelong, positive relationship with dental care.

We look forward to meeting you and your child soon!

Warm regards,
The Doctors and Staff at Pediatric Dentistry
